

# PARENTS' MEETING AT UMOJA

6 SEPTEMBER 2025

**The agenda was to update parents on the changes aimed at strengthening Umoja and to introduce a professional youth registration system before the center reopens.**

Since Umoja regularly holds meetings with parents, the Umoja Tanzania management team, representing the Umoja Europe team, met with parents to discuss planned changes aimed at benefiting the youth. Umoja Tanzania Team also distributed registration forms to ensure all youth are included in the official system.

Before reopening, Umoja is implementing the following changes:

- Replacing the previous local system of admitting children with a professional registration system.
- Introducing new programs with qualified teachers.
- Establishing a proper graduation system.

**The parents' perspective after hearing those changes.**

Parents received the changes very positively and congratulated Umoja for its efforts, since all of these are meant to bring positive changes for our youth.
